BUSY BIDEFORD

A party of Bidefordites spent a pleasant time at the Compeer dance, on Friday evening, on the occasion of the opening of Farrell's new barn. The Monitor Band supplied music which was greatly enjoyed by the dancers, and the dance was pronounced one of the most successful of the season. The proceeds were divided between the Band and the local Red Cross.

The cold frosty mornings that have come to remind us that summer has gone, are causing paternalists to look to the condition of the coal cellar.

The prospect of fuel prices is not an entertaining one when \$10 per ton is what the coal folks are asking in the near future. There is little need, however, to burn coal exclusively, as in many a garbage heap can be found good fuel substitutes in old boots, shoes, mail-order catalogs, etc. A bachelor in this district informs me that a tight roll of printed matter makes as good a fire as any log. It becomes us in this time of conservation to gather up the fragments that nothing be lost.

The School is now closed on account of whooping cough and is at present being disinfected. In reply to those kindly folks of another district who are enquiring what Bideford was doing in the matter of handling this disease, we beg to inform them that the parents have taken all necessary precautions in quarantining their children, that the Sunday School has been closed until further notice and the disinfecting is in the hands of the caretaker. We trust this will be quite satisfactory.

Miss Inkster has gone home to Edmonton until such time as the Trustees inform her the school is open again for teaching.

We had a glimpse of a real war nurse, the other day, and very smart indeed she looked in her blue and scarlet uniform. She was travelling on the east-bound train and we felt sure that her bright sunny face would carry cheer and comfort to any bedside and help the sick man bear up under the burden of what is intolerable to most men, the burden of being bedridden. One almost envied her the job of building up the broken bodies of the boys who are wounded; but common sense whispered that to us who wait at home was given the great work of keeping the nurses supplied with the necessary bandages, bed sox, etc. Has every reader done his or her part in this work? If not, call and see the Red Cross Secretary and get right on the job. Lots to do for both men and women.

Miss Dolly Procter left for Moose Jaw, on Monday.

The Lords Day Alliance has been taking a fatherly interest in our storekeepers and have sent admonitions regarding the keeping of the Sabbath day. We are in a position to say that the stores in Bideford have never countenanced buying and selling on Sunday, that what to outsiders appeared "unlawful trading" was merely an act of neighborliness. In small towns

it seems difficult to take the larger view of life.

There are decided bargains at McLeod's Sale of Hardware which every enterprising householder should consider.

POINTERS

Don't administer your finances on the come-easy, go-easy plan. Save.

A dollar saved over here helps the boys "over there."

In England they say: "A shilling wasted stabs a soldier in the back."

Parsimony, to promote the welfare of your country, is now a virtue; indeed, it is expected of you.

Save for Victory.

To save is the easiest of practices if you have the will.

Don't be a victim of circumstances; help to shape circumstances by saving.

The first dollar saved is often the first step on the road to affluence.

If you don't live within your means you must live on the means of others.

A man who is hovering on the verge of want is not his own master.

Sounding Lake U. F. W. A.

The Social held in the Horse Shoe School on Sept. 21st was well attended, and a most enjoyable and profitable evening spent by all.

A shipment of butter was forwarded to the Soldiers' Convalescent Home, at Ogden, by the members of the U. F. W. A. Mrs. Plumb and Mrs. Sellwood each 2 lbs. Mrs. Harley, Mrs. Mitchell, Mrs. Ingersoll, Mrs. R. Ridley, Mrs. Marshman and Mrs. Martin, each 1 lb.

Canada Food Board

The attention of the Canada Food Board has been drawn to the practice frequently adopted by Licensed Dealers in Fruits and Vegetables, of having men living in different parts of the country acting as their Agents, buying or contracting such produce, superintending the loading of same on cars ready for shipment, and receiving a commission from said dealers for such work.

All such Agents operating in the manner mentioned, without first having secured a license from the Board, are doing so contrary to the Order of the Board: "That on and after the 1st day Feb. 1918, no person shall deal wholesale in fresh fruits or vegetables, without first having obtained a license from the Food Controller," and in violating such are guilty of an offence, and subject to a penalty not to exceed \$1000 and not less than \$100.

TO every home there comes a time when every thought, every hope, every prayer for the future centres on the recovery of one loved one. In that hour of anguish, every means to recovery is sought—the highest medical skill, trained nurses, costly treatment. Does the price matter?

* * * *

It may be so great as to stagger the imagination—a sum beyond the possible.

But does anyone ask, "Can we do it?"

Money or no money, they do it. And somehow they pay.

It may mean doing without things they think they need. It may mean privations, sacrifices, hardships. They make unbelievable savings, they achieve the impossible, but they get the money to pay.

* * * *

To-day in this critical period of our nationhood, there is imperative need for MONEY—vast sums of money.

Only one way now remains to obtain it.

The nation must save, every community, every family, every individual Canadian must save.

If anyone says "I cannot save" let him consider to what extent he would pinch himself to relieve the sufferings of a loved one at home; and surely he would not pinch less for our fighting brothers in France.

Without suffering actual privations, nearly every family in Canada can reduce its standard of living, can practice reasonable thrift, can make cheerful sacrifice to enrich the life-blood of the nation.

You who read this, get out pencil and paper NOW. Set down the items of your living expense. Surely you will find some items there you can do without.

Determine to do without them.

Start TO-DAY. Save your money so that you may be in a position to lend it to your country in its time of need.

Note and Comment

Mother Eve may have invented curiosity, but she is the only woman on record who has never turned around to see what the other woman had on.

Before you can practice a virtue you must know what it is. When we speak of thrifty people we are apt to picture them living on cheap food, in cheap quarters, and wearing shabby clothes, having little or no pleasures, and saving every cent possible. But that is not thrift—far from it. Thrift is a greater virtue than the mere saving of money. Don't forget that.

The prudent man looks ahead and gets ready. The frugal man lives carefully and saves persistently. The economical man spends judiciously, buys wisely and wastes nothing. The industrious man works hard and saves hard; the miser hoards; but the man of thrift earns largely, spends wisely, plans carefully, manages economically and saves consistently. Thrift is all of prudence, economy, frugality and industry—and "then some." Thrift is that instinct of the dog that buries the bone he doesn't want for to-morrow's wants; the instinct of the squirrel that knows nutting is out of season in winter.

The women are hard to control. They now carry sugar instead of face powder in their vanity cases.

The gardens of this fair burg have, for the past few weeks, been ravaged by that dread disease, Pigitis. Very few of back yards have escaped a visit from these parasites, as they have been no respecter of persons, and showing that they had no favorites, treating all gardens alike, if unmolested.

One drove of pigs, eight in number, has made life miserable for the residents in town and must find the pickings good, judging from their looks; we mean the pigs, not the citizens.

We move that they be rounded and sold; the proceeds going to the Red Cross.

The scrap iron, for the Red Cross, is starting to come in, and the Society would like to get enough to fill a car. Don't wait too long but bring it in now, before the snow covers it up. Do it now.
